BIG LOSS OF CASH.

Bank Statement Shows Reserve Diminished \$9,716,125.

Clearing-House Exhibit Depresses the Market Slightly.

Securities Show Great Strength In the Face of the Statement.

At the opening of the Stock Exchange of the excitement which characterized the closing dealings yesterday. London came a little below our final quotations, and accordingly the traders jumped on

the market. ers, they met with little success. Sugar fell off 21-8 to 727-8, Chicago Gas 11-2 to back 51, Delaware & Hudson 1 1-2 to 112, Whiskey 1 3-8 to 15 1-2, and Louisville 1 1-4 to

The decline brought out but little long stock, and as soon as the shorts attempted to cover a rapid advance took place. It required no particular effort to advance the list, and the bulls eemed to be in full control.

They are still laying great stress upon President Cleveland's forthcoming message, and the arrival of large mounts of gold from abroad.

Sugar get up to 75 3-8, Rock Island to 60 1-2. Burlington to 79 3-8. Northwest 60 1-2. Burlington to 19 3-8. Northwest to 93 3-4. Western Union to 78 St. Paul to 55 1-4 and Chicago Gas to 52 1-2. The directors of the Cleveland & Pittsburg Railroad Company have declared the regular quarterly dividend of 1 3-4 per cent. upon the guaranteed stock.

burg Railrond Company have declared the regular quarterly dividend of 13-4 per cent, upon the guaranteed stock, payable Sept. 1.

Stocks continued to improve until the appearance of the bank statement, which was probably the most remarkable exhibit ever made by the Clearing-House. Even then the security markets displayed surprising strength, the decline having been less than 1-12 per cent., except in the cases of Chicago Gas, General Electric and Sugar, which yielded 21-2 a 31-4 per cent. The amount of stock thrown overboard was by no means large, and at the close a rally of 1-4 to 13-4 per cent. occurred.

The sales of stocks were 121,700 shares. In the unlisted department 25,100 shares of Sugar and 385 Lead were traded in.

The banks this week lost over \$12,000,000 in cash, but as the loans were expanded \$2,231,000, the decrease in deposits is only \$9,231,900. The reserve has diminished \$9,716,125, and the banks are \$14,017,500 below the 25 per cent. legal requirement. This is the first time the banks have been deficient to this extent. The disampointment feit at the condition of the banks would have been greater but for the knowledge that about \$12,000,000 gold is on the way, and that this will help to swell the reserves next week.

The following are comparative figures:

ton on sugar matters, and will await a summons from some Congressional investigating committee.

"The beet sugar industry is certainly not ready to stand alone," said he, "though in a few years it may be, for improved machinery is all the time lessening the amount of labor required. I believe this country ought to produce all the sugar it uses, somewhere near 1,800,000 tons. With the encouragement of the beet sugar industry I believe this will be brought about. We need a bounty for a few years yet."

tion of expenses and taking off of trains are in order.

The passenger department has suffered particularly. The expensive through trains to Chicago. St. Louis and other points are making their daily trips, but are carrying but few passengers. Three of the trunk lines, it is said on good authority, could easily reduce one-half the number of trains. Assistant General Passenger Agent Richards, of the New York Central while he admitted to-day that there had been an imparalleled failing off in the passenger lusiness over his road since July I, decised that all the through trains were paying expenses.

The decrease in business, said Mr. Richards, "is fir below that which was expected for this season of the year, and although there have been gags when our limited trains have not even poid expenses, their average has been profit.

"The New York Central is not running unprofitable trains, but, like all the other roads, it has felt the big falling off in husiness. When our through business suffered the local business has made upfor the loss, and, as far as I know, there is no intention to withdraw any trains.

"The cause of the decrease is due to the warm weather, and the generally light money market, but it is picking up again."

the warm weather, and the generally tight money market, but it is picking up again."

Eastern Passenger Agent Sam Carpenter, of the Pennsylvania, also admitted that the falling off in passenser business was discouraging, but he believed the outlook was promising.

The railroads are exerting themselves more than ever before, said Mr. Carpenter, "but the travel is the lowest in years. I am satisfied that the through limited trains on none of the roads are paying anything like they used to, but they may pick up soon again."

At the Erle offices it was conceded that the unusually poor travel had affected that road as well as the other, but the officials were hopeful.

Said a well-known railroad official: "As a matter of fact, the passenger business is simply awful, and conferences have been held by certain of the Trunk lines with a view of, reducing the through train service. There have been reductions in the general offices, and it is a common thing daily to see limited trains carrying only a doen passengers. Neither are the cheap World's Fair excursions patronized as well as was expected."

The threatened strike among the mes enger boys and men in the service of the Western Union Telegraph Company has not materialized. There seems to be no organization among the sengers themselves, and the sentiment in favor of striking is by no mean

unantmous.

This morning some of the boys said they would strike this afternoon if their pay is not forthcoming, while others did not want to be identified with the agitators.
